

Minuteman Security Technologies Announces Nationwide Expansion of its Integrated Security Systems Business

Our new secure cities surveillance product line will significantly broaden Minuteman's solution offering for the public safety market in cities throughout the United States

November 10, 2017 2:00 PM Eastern Daylight Time

BOSTON, MA - Enterprise security systems solutions company MINUTEMAN SECURITY TECHNOLOGIES, INC. today announced the nationwide expansion of its integrated security systems business including the citywide video surveillance and license plate recognition solutions. Minuteman's expansion is the result of both customer driven organic growth and strategic acquisitions.

“Together, the acquired complementary secure city technology solutions and our Transit Sentry™ mobile surveillance products allow us to offer our clients the most advanced public safety solutions available. Smart police cars and intelligent real-time fusion crime center programs will provide the company growth opportunities we never thought possible.”

Founded in 1988 and headquartered in Andover, Massachusetts, Minuteman's security solutions are used by enterprise organizations throughout the US. These organizations include law enforcement, energy companies, the transportation industry, large retail chains, academic institutions, public safety agencies and community hospitals. The company offers its clients big company capabilities with a small company feel.

“This expansion is key to both our growth and diversification strategies,” said Joseph Lynch, Minuteman's CEO. “From a growth perspective, these additions are in line with our strategic objective of complementing our organic growth by completing selective acquisitions.” Currently Minuteman is looking at additional expansion through acquisitions in strategic geographic locations within the US.

Minuteman's product offerings include video surveillance, access control systems, emergency communications, intrusion detection systems and public safety security solutions. As an industry leading security integrator, Minuteman partners with the best of class manufacturers to deliver and support our projects”.

Minuteman's three Regional Office locations and ten technical support locations include; Andover-MA (Boston), Portland-ME, Manchester-NH, Worcester-MA, Suffield-CT, Raleigh-NC, Atlanta-GA, Buffalo-NY, Tinley Park-IL (Chicago), Houston-TX, Phoenix-AZ, Las Vegas-NV and Rancho Cordova-CA.

To support the new national expansion, Minuteman is pleased to announce that Michael Tiffin, Senior Vice President (formerly of Rail Services Corp.) and Michael O'Brien, Vice President (formerly of Federal Signal Corporation) have recently joined the company. Mr. O'Brien will oversee the Central US Region and Mr. Tiffin will oversee the development of both Western and Central Regional Offices. "The acquisition of these two high caliber industry veterans is a significant score for the company", said Mr. Lynch. "They will be instrumental in propelling the company to the next level."
