

### Real-time High Definition IP Video over 4G LTE Cellular Network

- ▶ 360 Degree HD IP Video Surveillance Cameras
- ▶ GPS Locator & Vehicle Speed Monitoring
- ▶ Secure On-Vehicle & Remote Video Archiving
- ▶ Remote Health Monitoring & System Management
- ▶ On-Board Public Observation Video Monitor
- ▶ Operates on Any Browser, Smart Phone or Tablet

TransitSentry is the most advanced mobile IP video surveillance and security monitoring system designed specifically for mass transit vehicles.

A ruggedized high performance Intel i7 on-board computer is at the heart of the system. HD video and audio recording is managed by a Genetec Omnicast NVR archiver. A broadband mobile access router provides high speed data communications for live HD video viewing, archiving, alarm transmission, and GPS vehicle speed and route data.

The TransitSentry Vehicle Supervisor monitoring and management software provides a browser-based dashboard view of real-time access to vehicle data, system health, video, and alarms.

One Touch remote vehicle scanning and live video connector software provides police and emergency personnel the ability to automatically connect to a vehicle security system and display live video from within the vehicle, while in motion, even from hundreds of feet away.

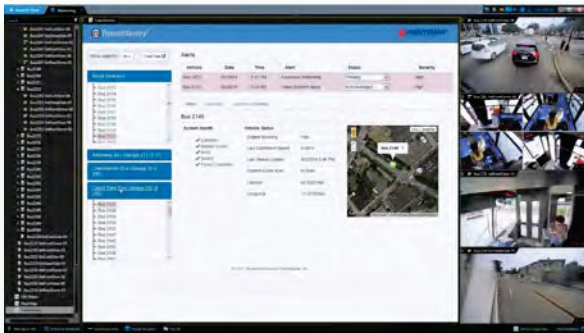

## FEATURES

- ❖ Real-Time Remote Monitoring
  - ❖ System Status
  - ❖ Alarm Events
  - ❖ Live & Recorded Video
  - ❖ GPS Vehicle Location
  - ❖ Vehicle Speed
- ❖ Dynamic Google Maps
- ❖ High Definition Streaming Video
- ❖ Asset Tree & Yard Inventory
- ❖ Remote Repairs & Software Updates
- ❖ Optional Auxilliary Alarm Inputs

## SPECIFICS

- ❖ Vehicles: 1- 10,000 Vehicles
- ❖ Clients: Unlimited Browser Clients  
(Internet Explorer, Chrome, Firefox, Safari, iPhone, Android)
- ❖ Intel i7 NVR w/Windows 7 Embedded
- ❖ On-Board Storage: 2 TB Hard Drive
- ❖ Central Storage: Unlimited
- ❖ Cellular Broadband Router: 4G/LTE
- ❖ WIFI: 802.11 Ethernet Connectivity
- ❖ Server: Windows 2008 Server or higher
- ❖ Microsoft SQL 2012, .NET, JAVA
- ❖ Support for ONVIF IP Cameras

## SYSTEM HEALTH MANAGEMENT

## INTEGRATION

Transit Sentry's open architecture also enables seamless integration with 3rd party systems like Genetec's Security Center video surveillance and security management system.
